COMMERCIAL INTELLIGENCE.

THURSDAY EVENING, 23RD AUGUST 1877.

THE past week has, if possible, been duller than its forerunner, and a feeling of great anxiety caused by the continued absence of rain has been the main characteristic of, and the principal topic of, conversation in business circles. In Bombay we have had nothing but the most insignificant showers; and during the last day or two the sky has assumed quite a dry weather appearance. From up-country the reports for the early part of the week continued unimproved; on Monday we had however to record a rumour that rain had fallen in the neighbourhood of Bhownuggur, and yesterday private telegrams were received reporting moderate rain at Bhownuggur, and also an hour's fall at Veerumgaum. This news, though it cannot yet be considered of importance sufficient to remove all fears for the future, is still cheering, and leads to the hope that better crop prospects are in store for Kattyawar and Guzerat than but a few days ago people ventured to expect. Whatever takes place now, we cannot look for a year of abundance in this Presidency, but we shall have reason to be thankful if famine be staved off and the Cotton crops of Guzerat and Kattyewar be saved. It is for these two provinces that the greatest anxiety has been experienced, as in other parts of the Presidency the moisture has on the whole been more abundant. This being Cocoanut day, on which the rains are traditionally supposed to be over, and the fine weather to commence, is a native holiday, and business is closed. This by no means unusual for heavy rain to fall in this country for some weeks after Cocoanut day, and it is to be hoped that this may be the case this season for the droppings of the clouds are still urgently required, not only to avert famine, but in many places to actually prevent a scarcity of water for drinking purposes intervening. From the remarks already made, it will be understood that business generally has been far from active here during the week under review. The demand for imports has continued to be limited in extent, while the business in exports has also been but small. Government Securities have further declined, and the Share Market has been weak at gradually receding rates, more especially for the Scrip of Spinning and Weaving Companies, for which prospects are naturally unfavourable when the country and its inhabitants are not prosperous. There has been little in the state of home politics to influence the tone of business here; while Turkish successes continue, there seems less probability of other European Powers, including ourselves, interfering in the struggle now going on; the aspect of affairs may of course change at any moment, and traders are still cautious of venturing largely in produce likely to be unfavourably affected by the spreading of the war.

At the weekly biddings for Council drafts in London yesterday £209,000 were allotted to Calcutta, at an average of 1s. 8·71d., and £56,000 to Bombay, at an average of 1s. 8·68d., all in Bills, according to Reuter. These rates are somewhat lower than was expected, looking at the rates of Sterling Exchange ruling here and in Calcutta, but the small amount allotted to Bombay shows that from this side of India there was not much enquiry for Remittances from home, and this is perhaps explained by the fact of the large quantities of Silver already on the way out to us. Reuter still quotes Silver at 54⅛d., which appears high in comparison to the rates of Exchange for Council Bills as given above.

MONEY.—The last published statement of the Bank of Bombay for the week ending on the 18th instant shows a further reduction in the Cash Balance of over 1¼ lacs, a decrease in Public Deposits of over 3½ lacs, and other Deposits of 4 lacs, while Loans and Bills discounted had been augmented by about 4½ lacs. These changes, though not of themselves of very great importance, still coming as they did after the considerable reductions in the Cash position of the Bank shown last week, pointed to a less easy state of affairs, and it was not a matter of surprise that at their weekly Meeting yesterday the Directors raised their rates of interest and discount 1 per cent. all round, they being now 6 and 7 per cent. on Government Bills, and Loans and Credits secured by Deposit of Government Securities, and 8 to 9 per cent. on Private Bills and advances on the Security of Merchandize. The Cash Balance according to the last statement was close upon a crore and forty lacs, quite ample for the business requirements of the place at this season, unless a further drain for up-country purposes occurs, the probability of which would to a certain extent be obviated if the improvement in the reports from the districts continues. In the bazaar Money has been not so easily obtainable during the past week, and some anxiety has been shown to husband resources until the crop prospects were better known.

EXCHANGE.—The past week has been an extremely quiet one as regard transactions in Sterling Exchange. The very limited nature of exports of all kinds has precluded the possibility of many Mercantile Bills being made, while the almost total stagnation in the import trade sufficiently accounts for the absence of demand for Bank Paper. Business opened after the departure of last mail at slightly firmer rates, the Bank that was buying half an anna per rupee low the others having assimilated its prices to theirs. For some time there was little or no change, but on Tuesday afternoon, owing to weaker advices from Calcutta, the Banks which were naming the higher rates for their Bills, reduced them to the general level, no change being made for buying rates, except by one Bank again showing a readiness to purchase Mercantile Paper at a difference in favour of sellers of 1/32d. per rupee. Yesterday was the last day for business, the Banks having been to-day closed for the Cocoanut holiday, and rates closed rather weaker again for Credits and Document Bills. We quote: On London Bank Bills, on demand 1s. 9⅞d.; 3 months' sight 1s. 9⅞d.; 6 months' sight 1s. 9d.; Credits, 3 months' sight 1s. 9⅛d. to 1s. 9 1/16d., 6 months' sight 1s. 9 3/16d. to 1s. 9¼d.; Document Bills at 3 months' sight 1s. 9 1/16d. to 1s. 9⅛d., 6 months' sight 1s. 9¼d. to 1s. 9 5/16d. per rupee.

On Calcutta, the demand for Bills on demand slackened almost immediately after the departure of last mail, and the rate greatly improved to our yesterday's quotation of 2 annas to 3 annas per cent., there has been but little done during the week. For 60 days' sight Bills buyers reduced their rate to 12 annas per cent. discount, though Banks were not inclined to sell under 10 annas; some Private Bills were offering yesterday at Rs. 1, discount. On Tuesday the Accountant General issued a notification that he was prepared to sell Supply Bills on Calcutta, on demand, at 5 annas, and at 15 days' sight, at 4 annas per cent. premium, but as these quotations did not at all coincide with market rates ruling at the same time, we presume no buyers were found.

On China, the quotation for 60 days' sight Mercantile Bills for the mail leaving on Monday last was Rs. 219 to Rs. 220 per 100 dollars, there has since been no alteration and nothing doing.

GOVERNMENT SECURITIES have been very dull throughout the week, and transactions have been very small, and almost, if not quite, limited to sales and purchases of petty amounts for the Bazaar. Rates, however, in sympathy with quotations from Calcutta, are slightly, but decidedly weaker. We quote 4, 95¾ to 96, 4½ 96¼ to 96½, and 5s, 102¼ to 3-16 per cent.

SHARES.—The Share Market has been very depressed during the fortnight, and prices have declined, especially for Spinning and Weaving Shares, which are very much out of favour looking at the poor reports of the working from every district in which are the greatest quantities of Bombay made Goods and Yarns; should the change for the better, indicated by the latest telegrams from Guzerat and Kattyawar, there will probably be an immediate improvement in prices of Mill Shares generally, should, on the other hand, the drought and famine be established we shall very likely see lower rates still. The Share Market closed last night, and will not reopen again till after the holiday, on Tuesday next. Bombay shares have gradually declined 1 per cent. Premium. National Bank are Rs. 1 and Madras Rs. 10 per Share below our last week's quotations. In Mill Shares the only advance has been one of Rs. 3 per Share in the Anglo-Indian (5 & W. Cooke). The following differences in favour of buyers are given by our quotations on three of last week: Rs. 5 in Broach, and Mandvis Rs. 10 in Coorla, Manchejee, the National and Sholapore, Rs. 15 in Albert and Oriental, Rs. 20 in Fleming Jewraj Balloo, Nursey Sassoon, and Rs. 25 in Allies, Alexandra and Hydrabad, Dharsee and Morji, Great Eastern, Rs. 40 in Bombay China, Dayabhoy, Madras United, Morarjee Goculdas, and Prince of Wales, Rs. 60, in Oriental, Rs. 65 in Madras and Dhurrumsey, Rs. 80 in Soondercdas, and Rs. 90 in Khandesh Spinning and Weaving Shares. In Press shares the only changes noticeable are a decline of Rs. 5 per share in Berars, of a like amount in Motasell, and of Rs. 60 in Scinde Press Companies. In Miscellaneous Companies the only alterations are a decline of Rs. 10 in Bombay and Burmah Trading Corporation and of Rs. 45 in the Landing and Shipping Company of Kurrachee.

PIECE GOODS have continued extremely quiet and dull throughout the past week, and transactions have been even on a smaller scale than during the previous fortnight. The off take from first hands amounts to 100 packages, Bazaar transactions are reported to aggregate 3,000 packages. Indents going forward are extremely limited. Prices are not much altered, but where a change has taken place it is in favour of buyers. For Grey Goods the demand is slack enough but for White, Dyed Printed and Turkey Red Goods there may be said to be no enquiry at all, and the rates which have been reported are almost retail in extent. This being Cocoanut Day it remains to be seen whether the opening of the season will bring with it any improvement in the position of this market, but present appearances are greatly against it.

TWIST.—We make no change in our quotations, which for the amount of business doing may be almost considered nominal. Stocks are larger than appear requirements.

METALS.—*Copper.*—The business for the period under review has been very small. Stocks therefore continue large, and quotations are about 8 Annas per cwt. lower. *Yellow Metal* is unchanged in prices and stocks are larger than requirements, the Markets dull and transactions have been on a small scale. In *Iron* also we have no change to report, and transactions have been limited while supplies continue in excess of the wants of the Bazaar. Lead is unchanged both for *Pig* and *Sheet*. Quicksilver has declined Re. 3 to Re. 5 per Maund. Spelter English has declined 4 to 8 Annas and foreign 4 Annas per cwt.

COALS.—No sales have taken place during the week. Cargoes have been rather freely offered, and prices in consequence show a downward tendency.

COTTON.—The business of the fortnight has not been extensive. Prices have advanced Re. 1 to 3 per candy, principally because of the fears entertained for the growing crop in some parts of the Presidency, the news from home has not been of a nature to encourage shipments. The transactions of the fortnight amount to nearly 6,000 Bales, the greater quantity of which is on account of the local mills, and the descriptions principally dealt in have been Wadwan, Oomrawuttee, Kirkee, Veerumgaum, Dholleras and Ginned Broach. Purchases for November and December delivery have been reported for Dholleras and Unjar at Rs. 195 per candy, but only of small quantities. New Crop Reports have not altered much, but if the rain in Guzerat and Kattyawar continues, we hope that there will shortly be an improvement in prospects to notice.

The following are to-day's quotations for New Cotton with the equivalents in Sterling Cost and Freight to Liverpool, via Canal, without commission:—

Full-pressed—	₹ Candy	₹ D. C. & F.
New Broach Ginned F. G. F. Ready	....Rs. 205 =	5¾d.
" Omrawuttee Good (nominal) do.	.... " 198 =	5 5/16d.
" Do. Fully Good Fair do.	.... " 193 =	5 3/16d.
" Do. Good Fair do.	.... " 189 =	5 1/16d.
" Dholleras Good (nominal) do.	.... " 189 =	5 1/16d.
" Do. Fully Good Fair do.	.... " 195 =	5¼d.
" Do. Good Fair do.	.... " 193 =	5 3/16d.
" Do. Fully Fair do.	.... " 188 =	5 1/16d.

SEEDS.—Linseed has been in steady demand throughout the week and prices have advanced to Rs. 6-14 to Rs. 7 per cwt., an improvement of 2 As. to 3 As. Rapeseed has been also enquired for, but the scantiness of stocks checks business, and prices which are now Rs. 7-15 to Rs. 8 per cwt, an advanced of 5 Annas, must be considered next to nominal. Gingelly has advanced Re. 1 to Re. 4, and Groundnuts Rs. 2 per Candy.

WHEAT.—For export there has been no business done during the week, prices having in sympathy with the reports from the famine districts and other parts of India advanced considerably and rendered business for Europe even more impracticable than it was before. We quote Best White Rs. 40 to Rs. 42 per Candy, being an advance of Re. 2 to Re. 4 per Candy.

FRIDAY, AUGUST 24, 1877.

A FEW days ago it was reported that Suleiman Pasha with his army had reached Eliana, on the northern slope of the Balkans, and it was not unreasonable to conclude that a junction had been effected between him and Mehemet Ali Pasha, the new Commander-in-Chief. It appears, however, that this report was erroneous, and the fact is one of great importance, as the events of the next few days will certainly prove. After beating the Russians at Eski Saghra, and regaining

SPECIAL TELEGRAMS FOR THE BOMBAY GAZETTE.

(FROM OUR OWN CORRESPONDENT.)

THE CANARD ABOUT RUSSIAN INTRIGUES WITH THE MAHRATTA PRINCES.

POONA Aug. 23.

The rumour mentioned in the London telegram of the *Times of India* about Russian intrigues with Mahratta chiefs is, so far as the information of the Government of India goes, absolutely unfounded.

THE VICEROY'S MOVEMENTS.

POONA, Aug. 23.

H. E. the Viceroy has postponed his departure till Sunday.

BOMBAY WEEKLY FAMINE STATEMENT.

The Famine Statement says, that the rainfall of the week is fairly good in Sholapore, Sattara, and Dharwar, but less propitious in Belgaum, and very inadequate in the remaining famine districts. Slight rain reported from Ahmedabad, and indications of approaching rain elsewhere in Gusorat. Improvement in the condition of the people still retarded by high prices and prolonged drought, and no change is expected unless favourable rain secures early and permits sowing of later crops. Decrease in the number of people on relief works 3,600, but increase on charitable relief 4,700 and 5,600 young children.

ENQUIRY INTO ALLEGED DEATHS IN RAILWAY TRAINS.

Official inquiry has been made into certain newspaper statements about the number of starving people taken dying out of trains at Karjat, when it was ascertained that only two deaths in trains have occurred during some weeks past, one of which occurred from fever at Karjat.

The Railway authorities attend the Viceroy to-morrow to explain the causes of deficient engine power.

FIGHTING IN THE SCHIPKA PASS.

LONDON, Aug. 23.

A Russian official despatch states, that Suleiman Pasha with forty battalions renewed the attack on the Russian position in the Schipka Pass on the 21st instant, and that he was repulsed; the fighting, however, which had been continued throughout the day, was still proceeding after darkness had set in. Simultaneously with the abovementioned attack, the Turks advanced from Loftcha towards Selvi to attack the position taken up by the Russians between those two places. The result of the fighting is as yet unknown.

The Russians are making preparations for a winter campaign.

THE TURKISH TREATMENT OF THE RUSSIAN PRISONERS.

The German Government has made diplomatic representations to the Porte respecting the manner in which the Turks treat Russian prisoners and Russian wounded, and has asked the concurrence of the other Powers in the matter.

THE FAMINE RELIEF FUND.

The Mansion House Relief Fund on behalf of the distress in Southern India now amounts to £24,000. Her Royal Highness the Princess of Wales has given £100 towards it.

THE FIGHTING IN THE SCHIPKA PASS.

The fighting in the Schipka Pass was still proceeding yesterday afternoon. Russian official despatches state that the repeated attacks of Suleiman Pasha have been repulsed with heavy loss.

A despatch from Osman Pasha states, that on the 21st instant he repulsed a Russian reconnoissance to the westward of Plevna.

RAIN REPORTS.

The following telegrams, dated yesterday, have been placed at our disposal :—

WUDWAN, 8-30 a.m.—Last night one inch of rain fell in districts around.

BROWNSUGGUR, 7-30 a.m.—Slight showers in the districts. No improvement in crops.

BROACH, 9-40 a.m.—Weather clear, no sign of rain. Ten annas cotton crop safe for 15 days longer. Rain fell at Jamboosur, Ahmod, up to Baroda.

The paragraph which we published on Tuesday from a correspondent in Poona, complaining that commanding officers of native regiments had not been invited to meet the Viceroy at Gunnesh Khind, and which has been contradicted on good authority by our Poona correspondent, was sent to us properly authenticated by an officer in Poona, who sent his card with the communication. We expect him to send an explanation to us, as surely he must have one to give.

By the way, Reuter telegraphed out to India the other day that Salonica had been placed in a state of siege. Why? No explanation has yet been forthcoming. As Salonica is at present a long way off the field of operations we cannot imagine why it should make such warlike preparations unless the Turkish authorities consider it to be threatened by the military activity of the Greeks. It is a pity Reuter was not more explicit in giving us this puzzling piece of information.

We believe that our Poona correspondent was not exactly correct, in his description of the Poona Fine Arts Exhibition the other day, in supposing that Mr. Hamilton Maxwell had taken prizes at previous Fine Arts Exhibitions. He has not been noticed before in these, and as he is highly commended this year, he is rapidly getting up in the world as an artist.

We learn that Colonel Alexander, B. S. C., Superintending Engineer and Secretary to the Resident H. F. W. D., Bolarum, intends retiring from the service at the end of the current year. The next senior officer is Major Swetenham, R. E., who will probably be nominated to the post.

A MADRAS correspondent says :—"You do not seem to notice much in Bombay the tone of the different papers here. The *Athenæum* is quiet and inoffensive, the *Mail* is always well-written and judicious, but latterly the *Times*, which used to be one of the staidest old stagers in India, has become a daily shriek. This change in the *Times* has been the more conspicuous since a young man connected with it was made Secretary of the Famine Committee. The honour has completely turned his head, and the result is that the *Times* has become nothing but a foolish, howling, and impertinent old woman, unable to think of anything but praises of the Duke of Buckingham and his famine policy. He abuses with marvellous bumptiousness, everybody who does not agree with him, and I see that you have lately come in for a share of his juvenile wrath because you had the audacity to hint that in the present grave crisis the Government of India must think of other places besides Madras. Nowadays, it appears to me, that the *Times* has become famine-stricken as well as the Presidency in every quality of sober journalism. For the sake of the paper, this is a pity, because readers can no more live upon nothing but "cheek" than man can live on bread alone. We are all looking anxiously for the Viceroy. Perhaps it is a pity he did not come sooner; but when he comes I hope that our Governor will see the necessity there is for giving the Government of India every assistance in a crisis which is general."

WITH the sanction of Her Majesty the Queen, Empress of India, the title of "Councillor of the Empress" is conferred on the undermentioned officers of Government :—Eden, the Hon'ble A., C. S. I., Lieutenant-Governor of Bengal (*ex-officio*). Egerton, the Hon'ble R. E. C. S. I., Lieutenant-Governor of the Punjab (*ex-officio*). Johnson, the Hon'ble Major-General Sir E. B., K. C. B., Member of the Council of the Governor General, (*ex officio*). Stokes, the Hon'ble W., C. S. I., Member of the Council of the Governor General (*ex-officio*).

IT is rumoured at Simla that Sir George Couper contemplates the abolition of all the colleges in the North-West Provinces and Oudh with the exception of one, which will probably be that at Allahabad.

A EUROPEAN named John Boyle was conveyed to the General Hospital, Madras, on Saturday, with a gun shot wound on his right calf, caused by the explosion of his gun while out shooting in the Chittoor district. The doctors wanted to amputate his leg, fearing that gangrene might set in, but the man would not allow it.

LIEUTENANT AND ADJUTANT MCINNES, 9th Lancers, met with a servere accident at Sealkote on Friday afternoon last. When driving home from orderly room between 3 and 4 p. m., his horse shied over some bad uneven ground between the barracks, and upset the buggy, breaking one of Mr. McInnes's legs just above the ankle. Medical aid was promptly forthcoming, and the broken limb was reset, and the sufferer sent home.

MR. G. HARTLEY, the Sergeant Major of the Madras Volunteer Guards, who resides in Fort St. George, has lost two of his children, who fell victims to the epidemic. The wife of Sergeant Keenan, 67th Regiment, was also seized last Monday morning and died at the General Hospital in the evening.

THE heat, says the Lahore paper, continues on the increase, and permission has been obtained to remove some of the bad cases in the 9th Lancers hospital to Murree. Fearful weather for the poor fellows to be moved in, but no doubt everything that can be done for their comfort will be seen to by the officers of this gallant regiment, always most careful of their men.

THE number of cures effected by European medicines in cholera has made the inhabitants in the Bellary district bold enough to seek treatment when any member of their families is stricken. Many Brahmins, whose caste prejudices forbid them using hospital medicines in any shape or form, have eagerly sought treatment when needed. So much for the beneficial effects of English medicine.

IT is reported, that the Ameer of Cabul expresses himself often very bitterly against the English in Darbar, but the people, generally oppressed with taxation and impoverished by the stoppage of trade, are most anxiously desiring the termination of disputes between Cabul and India. All the Ameer's councillors are represented as taking the same view.

SOME person or persons attempted to rob a bag containing Rs. 2,000 on Friday last, from the room of the Madras Currency Office, situated in the lower premises of the building occupied by the Accountant General's Department. There are European and native military guards placed on duty at the Accountant General's Office, and the quantity of specie in the vaults of the Currency Office is in daily disregarded, which tended somewhat to mar what would otherwise have been an incomparable game. Allow me to give them here :—"It is lawful to take up a ball when *rolling or bounding*." "In a scrummage it is not lawful to touch the ball with the hand." "A player, having taken the ball up fairly, may run with it, but when *fairly held* he must have it down at once." "If in the case of a 'run' the player be *partially held*, he may pass the ball *back* to one of his own side."

There were players who constantly took up the ball when it was "dead," or in a scrummage, and who, when fairly held in a run, would not have the ball down. Again, there was too much pushing and hacking. With regard to *pushing*, it is lawful to push when the ball is *on the ground* in a scrummage, but not otherwise.

It is to be hoped that in the return match the above rules will be strictly acted up to, and that hacking and pushing will be left aside. Yesterday evening the "Invited" were on the defensive throughout the game, and found it up-hill work against the superior weight and the good play of the Gymkhana team, who had the best of the game. Those lost laurels must be won back.

NOTES FROM BERAR.

(FROM OUR OWN CORRESPONDENT.)

AKOLA, Aug. 22.

SINCE the 8th inst. the weather has taken a complete change from cool and pleasant to hot and sultry and there is no hope, which causes great anxiety. *Kharif* plants look promising, but showers are wanted. Just about one-half the average quantity of rain has fallen this monsoon. Prices are gradually rising, and the *bannias* are glad at the state of affairs to palm off their rotten grain that has been stored away for years. A friend writes to say that a number of his poultry died from eating rotten jowari.

I am glad to state that Captain Lane will very shortly be gazetted permanent Inspector General of Police and Jails H. A. D.; the former post he well merits, and has often officiated in it. It was a mistake in gazetting him last month as officiating Inspector General of Police. Writing on matters of Police, I may as well allude to a statement that an Assistant Superintendent of Police is to be transferred to the Cantonment of Secunderabad, and that Mr. Hobson will be selected, not Captain Bunbury.

Intimation has reached here that the notorious scoundrel Furma, one of the ringleaders of a gang of dacoits, was tracked and re-apprehended in the Melghat forests about a week ago. Thanks are due for this to Captain Mackenzie, D. C., Ellichpore, who did not cease his efforts till Furma was caught. Some six months ago Furma got out of the four ringleaders were apprehended while in the act of committing dacoity in the Baitool district. Two of the vagabonds received their reward, but Furma broke from his custody through the craftiness of a woman, while the fourth is still at large. Baitool is on the confines of the Ellichpore district. Discontent seems to prevail among the Elydesbad Contingent, caused by a Lieut.-Colonel not getting command of a certain Cavalry Regiment, whose commandant is now a Major, and the 2nd in command the Lieut.-Colonel, and who, by the bye, (I mean the latter) commands the station. The ways of the *militaire* are incomprehensible. It was expected that the Lieut.-Colonel alluded to would receive command of the 1st Cavalry during Lieut.-Colonel Watson's absence on leave, but it is to be otherwise.

Mr. Wodehouse, Executive Engineer East Berar Division, has returned from leave and assumed charge on the 18th instant. Mr. Pope, Executive Engineer of this Division, may be transferred to the Secunderabad Division in the place of Lieut. Fox, R. E., going to Burmah, providing the two divisions F. W. be not blended into one.

To make the great Melghat forest more lucrative, a road to Peeli was commenced last year, and now twelve miles or thereabouts, I am told, are completed. Berar is sadly in want of pucca roads. In the whole 17,600 square miles there are only metalled roads in all about 350 miles long.

In my Notes of the 13th instant, the years placed over the figures representing the comparative rates of grain were reversed. It will be as well to reproduce the list, with the correction made, as follows :—

FURLOUGH.

THE following Military letter from the Right Hon'ble the Secretary of State for India is published for general information :—

India Office, London, 5th July 1877.

To His Excellency the Right Hon'ble the Governor General of India in Council.

Having considered in Council your Military letter of the 29th March last, on the subject of the furlough pay of officers of Royal Engineers of the Imperial List, I have decided that, for the future, these officers may receive their pay while on furlough, either under the regulations in force before February 1873 or under the terms of your General Order of the 7th of that month, that is to say, an officer of Engineers of the Imperial List may, at his option, on taking furlough to this country, either receive furlough pay on the understanding that, should he not return to India, he will have to refund the difference between it and English pay, less the regulated amount of passage money, or a free passage and English pay only during the period of his furlough, the difference between English pay and furlough pay, less the cost of his passage, being lented to him upon his return to duty in India. The officer's choice should be made at the time of applying for furlough, and should be noted on his last pay certificate.—I have, &c.

SALISBURY.

GOOD SERVICE PENSION.

IT is announced that on the recommendation of the Government of India, Her Majesty's Government has been pleased to confer a good service pension on the undermentioned officer, with effect from the 12th March 1877, in room of Colonel D. S. Dodgson, C. B., Bengal Infantry, succeeded to the Colonel's allowances :—Colonel Octavius Edward Rothney, C. B., C. S. I., Bengal Staff Corps, Brigadier General Commanding Cowalior District.

Services.

Served during the Sutlej Campaign of 1845-46. Served with Colonel Mackeson's Force against the Hussanzaies in 1852-53. Commanded the 4th Sikh Infantry, in charge of a chain of outposts in Thurwaddy in Pegu in 1854, and was several times engaged against the rebel leader, Gouny Gee. Present at Loodiana on the 8th June 1857, and held the town and fort in check and protected the cantonment with the main body of the 4th Sikh Infantry, afterwards pursued the mutineers with Major Oliphert's Column. Joined the Delhi Field Force on 23rd June 1857, and commanded the 4th Sikh Infantry throughout the siege and assault of Delhi and several engagements in and near Delhi (mentioned in despatches, brevet of Major, medal with clasp). Commanded the 4th Sikh Infantry with General Chamberlain's Force against the Cabul Khel Wuzeerees in 1859, and was present at the affair of Maidanee. Commanded the Hazara Goorkha Battalion with the same force against the Mahsood Wuzeerees in 1860, and was present at the repulse of the night attack on the camp at Palooosen and at the forcing of the Burrara Pass (mentioned in despatches, medal with clasp).

DISPLAY OF THE NEW REVOLVING LIGHT ON MANORA POINT.

FROM Wednesday, the 15th August 1877, may be reckoned a new *era* in the history of the youthful but flourishing port of Kurrachee, since on that date the new first order Revolving Light on Manora Point was displayed, under the inspection of Sir William Merewether, Commissioner in Sind, thus fitly crowning the series of improvements to the harbour, which he has done so much to promote.

The Commissioner accompanied by General Howard Vyse, Mr. Millvill, Judicial Commissioner, and a large party of ladies and gentlemen invited by Sir William to witness the ceremony travelled by special train to Keamari and thence in the Indo-European Telegraph Department steam barge to the Manora Pier, whence the party were conveyed by trollies up to the Fort, where they arrived by 6-45 p. m. Facing the new lighthouse close by, a large tent carpeted, decorated, furnished, and furnished with rows of seats was prepared for the preliminary ceremony, at which not only the visitors from Camp but most of the residents of Manora attended. The Commissioner having taken the chair, the proceedings were commenced by Mr. Price reading an address to Sir William Merewether in reply to which Sir William said :—

Mr. Price, Captain Parker, Ladies and Gentlemen,—There is an old Latin adage *finis coronat opus*, and I am sure I would not wish to see a better *finis*, if I may say so, to the work that has been done before me, for most thanks are due to my friend, Mr. Price, who has in the completion of this work added another claim to our gratitude in this further specimen of the care and skill he has ever displayed in the improvement of our harbour. Mr. Price not only possesses great powers and displays much devotion to his duty in himself, but he has the happy knack of drawing out those qualities to an eminent degree from all those who are associated with him and serve under him. He has alluded to the hearty labours of Messrs. Humbey and White, whom I see near me, and I am happy in having the opportunity of saying how, from my own personal observation, I am able to most fully concur in the encomium he has passed on them, for the zealous and valuable assistance they have rendered on this as well as on all previous occasions since they have laboured together in the important works connected with this harbour. These works first designed by that eminent Engineer, Mr. Walker, and carried on afterwards under the superintendence of Mr. Parkes owe, however, their great success practically, I consider, to the undeviating perseverance and undaunted energy of Mr. Price. He has allowed no other difficulties nor opposition to discourage him, and at one time the opposition was most strenuous—but he was never disheartened, feeling confident in the results which have been so triumphantly secured, and for the attaining of which we may, I think, well congratulate him. I am glad Mr. Price has mentioned what is my intention, Mr. Sangster, and I wish he was present here this evening that he might join in this gathering, and have an opportunity of personally appreciating the good labours of the native pilots, he so carefully instructed. I well remember that when I first came to India in the monsoon of 1841 it was a matter of great importance to communicate with Kurrachee by sea, and it was considered a most risky thing for one of the Indian Navy war steamers to attempt to reach this port at that season of the year, and many of the oldest officers had great doubts as to the success of the trip. It was, however, a successful one, but the steamer had to remain for out at sea and with difficulty maintain her railway-man, and with great care and activity the choicest fish in the baskets inside were picked out and walked off with impunity. It was a pitiful sight to see the poor Kolee women crying bitterly at this barefaced injustice, but what could be done? "Might is right," and it was never more truly verified than in the present instance.

I hope you will give this publicity, and as a guarantee for the above being true, I enclose you my card.

Bombay, Aug. 22. AN EYE-WITNESS.

BYCULLA *VS.* UNITED—FOOTBALL.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Yesterday evening's football game was a spirited and well-contested one. The best players of the Gymkhana and United Clubs were on the field, and each side seemed determined to win or die. But apart from this praiseworthy intention, it would be well if both clubs played within the rules. There were four principal rules which were decidedly broken, and which, if not to mar what would otherwise have been an incomparable game. Allow me to give them here :—"It is lawful to take up a ball when *rolling or bounding*." "In a scrummage it is not lawful to touch the ball with the hand." "A player, having taken the ball up fairly, may run with it, but when *fairly held* he must have it down at once." "If in the case of a 'run' the player be *partially held*, he may pass the ball *back* to one of his own side."

There were players who constantly took up the ball when it was "dead," or in a scrummage, and who, when fairly held in a run, would not have the ball down. Again, there was too much pushing and hacking. With regard to *pushing*, it is lawful to push when the ball is *on the ground* in a scrummage, but not otherwise.

It is to be hoped that in the return match the above rules will be strictly acted up to, and that hacking and pushing will be left aside. Yesterday evening the "United" were on the defensive throughout the game, and found it up-hill work against the superior weight and the good play of the Gymkhana team, who had the best of the game. Those lost laurels must be won back.

NOTES FROM BERAR.

(FROM OUR OWN CORRESPONDENT.)

AKOLA, Aug. 22.

SINCE the 8th inst. the weather has taken a complete change from cool and pleasant to hot and sultry and there is no hope, which causes great anxiety. *Kharif* plants look promising, but showers are wanted. Just about one-half the average quantity of rain has fallen this monsoon. Prices are gradually rising, and the *bannias* are glad at the state of affairs to palm off their rotten grain that has been stored away for years. A friend writes to say that a number of his poultry died from eating rotten jowari.

I am glad to state that Captain Lane will very shortly be gazetted permanent Inspector General of Police and Jails H. A. D.; the former post he well merits, and has often officiated in it. It was a mistake in gazetting him last month as officiating Inspector General of Police. Writing on matters of Police, I may as well allude to a statement that an Assistant Superintendent of Police is to be transferred to the Cantonment of Secunderabad, and that Mr. Hobson will be selected, not Captain Bunbury.

Intimation has reached here that the notorious scoundrel Furma, one of the ringleaders of a gang of dacoits, was tracked and re-apprehended in the Melghat forests about a week ago. Thanks are due for this to Captain Mackenzie, D. C., Ellichpore, who did not cease his efforts till Furma was caught. Some six months ago Furma got out of the four ringleaders were apprehended while in the act of committing dacoity in the Baitool district. Two of the vagabonds received their reward, but Furma broke from his custody through the craftiness of a woman, while the fourth is still at large. Baitool is on the confines of the Ellichpore district. Discontent seems to prevail among the Elydesbad Contingent, caused by a Lieut.-Colonel not getting command of a certain Cavalry Regiment, whose commandant is now a Major, and the 2nd in command the Lieut.-Colonel, and who, by the bye, (I mean the latter) commands the station. The ways of the *militaire* are incomprehensible. It was expected that the Lieut.-Colonel alluded to would receive command of the 1st Cavalry during Lieut.-Colonel Watson's absence on leave, but it is to be otherwise.

Mr. Wodehouse, Executive Engineer East Berar Division, has returned from leave and assumed charge on the 18th instant. Mr. Pope, Executive Engineer of this Division, may be transferred to the Secunderabad Division in the place of Lieut. Fox, R. E., going to Burmah, providing the two divisions F. W. be not blended into one.

To make the great Melghat forest more lucrative, a road to Peeli was commenced last year, and now twelve miles or thereabouts, I am told, are completed. Berar is sadly in want of pucca roads. In the whole 17,600 square miles there are only metalled roads in all about 350 miles long.

In my Notes of the 13th instant, the years placed over the figures representing the comparative rates of grain were reversed. It will be as well to reproduce the list, with the correction made, as follows :—

BOMBAY.

THE following are permitted to resign their appointments in Her Majesty's Indian Marine :—J. P. James, 4th grade Officer. E. Monk, 2nd grade Engineer.

POSTAL NOTICE.—The departure of the coast mail per B. I. S. N. Co.'s contract steamer having been unavoidably postponed until to-morrow, the 25th instant, the mails will be closed at the General Post Office at the usual hour on that day.

MR. HENRY P. JERVIS, L. M. and S. of the Bombay University, who went home in March last to compete for the Indian Medical Service, has successfully passed the prescribed competitive examination held in London on the 13th instant. Surgeon Jervis is the younger son of Mr. T. Jervis, Superintendent Preventive Service, Bombay.

STATEMENT OF SILVER BALANCE IN THE MINT.—The value of silver in the Mint on the morning of the 13th August 1877 was Rs. 1,11,38,823, add silver received during the week Rs. 10,31,346. The sum of Rs. 11,29,081 in new coin was paid during the week; the balance left was Rs. 1,10,41,089. There is in addition bullion valued at Rs. 19,98,212 belonging to private individuals deposited in the Mint vaults and awaiting assay.

SUICIDE.—A Coroner's inquest was held yesterday at Borak Musjid Cross Lane, Fort, on view of the body of Nawazbai, woman. Deceased was about twenty years of age, the wife of Sorabjee Fanseejee. On the night previous deceased was seized with vomiting, and subsequently declared that she had partaken of arsenic as she had no desire to live longer; she assigned no reasons, however, for her rash act. Deceased was not quarrelsome, and she appears to have lived on good terms with her family. Upon the evidence adduced the verdict was, that "the death of the deceased was caused by arsenic, which she voluntarily administered to herself."

MORTUARY RETURNS.—The total number of deaths registered during the week ending Tuesday, 21st August, was 597, being 5 more than in the preceding week, 256 more than the total of the week ending 22nd August 1876, and 348 more than the mean of the corresponding period in the preceding five years. During the week 314 births were reported in the different districts of the city. The rate of mortality per 1,000 of the population was 54·87. There were 198 deaths from remittent fever which is 51 more than last week and 120 more above the same period last year. There were 91 deaths from cholera last week as compared with 85 during the previous week. The deaths from diseases of the respiratory system, diarrhœa, and dysentery were last week 42, 36, and 66 respectively as compared with 22, 28, and 32 last year.

BRIGHT PROSPECTS AT GOA.—We learn from Goa that there has been a good rainfall during the present month, and that the prospects of the rice crop and other cereals promises a satisfactory out-turn. At certain places near the sea coast, however, grasshoppers in large numbers have made their appearance, and do considerable damage. The crows, it is said, are devouring these insects, but afterwards die in large numbers, which is attributed to the poisonous nature of these insects as food. Some of the famine-stricken people who have migrated into Goa have, we are informed, established themselves in some villages, and are engaged in the work of weaving cloth by the instruments they brought with them. This work will, no doubt, afford them the means of obtaining temporary relief from the utter destitution in which they arrived.

VACCINATION.—The following is one of the Rule which more particularly concerns the public, made by the Sanitary Commissioner, and sanctioned by His Excellency the Governor in Council, under the provision of sec. 31 of the Bombay Vaccination Act :—"Vaccination at Public Vaccine Stations will be performed gratuitously, but a Public Vaccinator may, as provided in section 13 of the Act, accept a fee for vaccinating a child by request of the Parent or Guardian elsewhere than at a Public Vaccine Station.' An additional fee of Rs. 5 for the use of the heifer will be charged for such vaccination at a private house, but if more than one member of the family is vaccinated, this extra charge will be increased to Rs. 10. If Rs. 5 per each individual operated upon. A maximum charge of Rs. 15 for the use of the heifer will be made for vaccinating all the members of any one family, including servants. In the events of Firms or Companies being desirous to have their establishments vaccinated in their own premises, a fee of Rs. 15 will be charged for the use of the calf, and a further charge of 4 annas per head will be made for each individual vaccinated when the number is under one hundred. This charge will be reduced to 3 annas per head, if the number of persons vaccinated exceeds 100. The sums so received are to be paid to the Municipal Commissioner to the credit of the Municipal fund."

P. AND O. S. S. DECCAN.—A passenger sends the following letter, in praise of the P. and O. steamers, to the *Englishman* :—

"The P. and O. is a much-abused Company, and I have the more pleasure in saying what I can in its favour. We left Bombay on the 13th July, and expect to reach Suez to-morrow evening the 27th, which will be two days before contract time. The Deccan, as you are probably aware, is a fine specimen of the P. and O. Company's fine fleet, and her Captain (Gaby) has the reputation of being a first-rate seaman. The arrangements on board for the passenger's comfort are excellent. The attendance is good; there is a sufficient staff of stewards; and the stewardesses (there are two) have been unremitting in their care of the ladies and children, several of whom suffered severely from sea sickness between Bombay and Aden. The table is first-class; the food is of the best quality, and there is variety enough to satisfy the most particular. I notice a very decided improvement in this respect since last I travelled by a P. and O. steamer in 1873. A judge from his daily experience, the cook must be quite an *artiste* and the baker and confectioner are his worthy colleagues. It is almost needless to say that the ship's officers are pleasant, gentlemanly fellows, and that the ship herself is kept in the most perfect order. Altogether, things are made as easy as possible to the passengers, and the discomforts of a sea voyage in the tropics are reduced to a minimum. It is, I think, very much to the credit of the P. and O. Company that, though compelled to reduce their charges by competition, they have steadily maintained their high reputation as public carriers to India and the East."

THE STEAMER MECCA.

Up to Monday last there seemed to have been every hope that the B.I.S.N. steamer Mecca would be towed off the Krishna shoal by the Messrs. Mackinnon, Mackenzie's paddle steamer Rangoon which would have reached the spot where the Mecca is grounded on Tuesday. The Krishna shoal is about 70 miles from Rangoon.

THE VOLUNTEER MEETING.

WE beg to remind the Bombay Volunteers and others who may take an interest in the movement, that a meeting for resolving on certain decisive measures before commencing work in earnest is to be held this afternoon, at five o'clock, in Town Hall. The Hon. Mr. Justice Kemball has consented to preside. It is very desirable that at least every one who has enrolled his name should attend.

COCOANUT DAY.

YESTERDAY a general holiday was observed in Bombay on the occasion of the feast of *Purnima*, held in honour of the God of the Sea. On this day, which is known in the Hindoo Calendar as the 15th of Shrawan Shukla, offerings of cocoanuts and other produce of the earth are annually made to the briny Godship, in token of their thankfulness that the boisterous monsoon is near its close, and to propitiate him and induce him to manage the element under his control in a manner favourable to the pursuits of those "who go down to the sea in ships and do business in great waters." The usual picturesque ceremony of throwing the offerings into the sea was observed yesterday by thousands of natives, and many Europeans assembled to witness the scene, and also attended the fair which was held afterwards on the Esplanade.

PATENTS.

SPECIFICATIONS of the undermentioned inventions have been filed in the office of the Secretary to the Government of India, in the Home Department :—

Mr. S. C. Davidson and Mr. E. B. Hart, both of Belfast, Ireland, gentlemen, for improvements in apparatus for drying tea, applicable also for drying or heating other substances.

Mr. W. G. Olpherts, of the East Indian Railway Company, Calcutta, Civil Engineer, for a cast iron combined railway sleeper and chair.

Mr. N. A. Otto, of the Gas Motoren Fabrik Deutz at Deutz, in the German Empire, for improvements in gas motor engines.

Mr. J. A. Moller, of Amsterdam, Holland, Civil Engineer, at present of 123 Chancery Lane, London, for a new or improved method for the manufacture of gas and fuel from rice husks.

INDIAN EXTRACTS.

BUST OF DR. DUFF.

THE ceremony of unveiling the marble bust of Dr. Alexander Duff took place on Saturday afternoon at the Free Church Institution, Calcutta—the institution founded by Dr. Duff, and which was the scene of the greater portion of thirty years of his labours in this country. The Rev. Mr. Fyfe, Principal of the Institution, presided on the occasion, and there was a large number of European ladies and gentlemen present; of native gentlemen and ladies the number was simply immense. The large hall in which the bust has been erected was crowded to suffocation, and at the lowest computation there must have been over fifteen hundred persons present. Babu Mohesh Chandra Banerjee, one of the oldest pupils of Dr. Duff, was the first to address the meeting, and he expatiated at some length, amidst considerable applause, on the virtues and goodness of the great and eminent man whom they had assembled to honour. The bust was then unveiled by the Babu amidst deafening shouts and cheers, which it was very difficult to repress for about ten minutes. It was pronounced by all present who knew the Rev. Doctor to be an excellent likeness, and the enthusiasm with which the ceremony of unveiling was received testified to the affectionate reverence in which Dr. Duff, though thousands of miles away, is yet held, not only by his pupils but even by those who have merely heard of him.

The Rev. Dr. Banerjea then addressed the meeting. He dwelt in detail on the nature and character of the good work which Dr. Duff had performed in this country. That work was the regeneration and improvement of the people whom he did not desire to treat as mere dolls, and puppets, but whom he wished to raise to the highest level of intellectual, moral, and spiritual eminence. The arrival of Dr. Duff in this country was an epoch in the history of missions, the difference between the pre-Duff and the post-Duff eras being that during the former the cultivation of the intellect did not go hand-in-hand with the preachings of Christianity—a system which was introduced by Dr. Duff, who fully recognised that, although it was quite possible for the Holy spirit to accomplish the work of conversion independent of human help, yet that did not excuse man from exercising his best thoughts in that direction.

Babu Kalicharan Banerjea also spoke at great length on the virtues and amiable qualities of Dr. Duff, at whose feet he had had the privil-ge of sitting during the last three years of his Indian career.

The meeting then broke up, with a vote of thanks to the chair.—*Englishman.*

PIG-HUNTING AT THE MULLEER.

NOT many years ago boar-hunting was not uncommon in Kurrachee. Gibbard, Marston, Wayler, Lang and Rose are familiar names in connection with this bold and adventurous pursuit. The Hubb valley and the Mulleer lands have more than once given them opportunities of displaying their skill and courage and of testing the qualities of their pick from the Bombay and Kurachee studs. Country horses were a few years back not thought fit for such work, but those who have to do with them more than with Australians, Arabs, and walers do not deny to many of them a character for pluck, speed, and endurance equal at all times to the occasion. The wild hog is much unlike the meek sluggish creatures found in domestic stys. He travels fast when pushed, requires nothing very far from turf speed to bring a spear near his withers, and as he chooses the worst possible ground for his escape and does not yield without a fierce battle, the nerve of both horse and rider is will tried before he succumbs. In pursuing him then "Danger's self is here alone." It is no tame work, therefore, the Kurrachee Tent Club have undertaken. We have no reason to believe that the wild hog of Sind, particularly those to be found on the Hubb and Mulleer soil, are in any way inferior for the species found in Bengal and Guzerat. On the contrary we lean to the opinion that from the constant attacks to which they are open at the hands of our savage Mahomedan cultivators, who pursue them as depredators and frequently too for sport, they know the use of their limbs and their powers

THE CHARGE AGAINST DETECTIVES.

(Continued from yesterday's "Bombay Gazette.")

Examination continued by Mr. Poland—Mr. Brydone of Kildon-street, Edinburgh, was employed to print the newspaper ?—Yes.

You had the leading article translated into French ?—Yes; Benson did it.

Who wrote the article originally ?—I did. Benson corrected it gramatically.

You had the article printed in French ?—Yes; but I will not be sure who did it. I believe Brydone did. We had circulars printed in French.

In order to produce the idea abroad that money was being sent to them had you forms of cheques printed of which these are two ?—Yes.

The form of the cheque is: "No.—, Agar-chambers, London. Royal Bank of London, Charing-cross. Pay to —— or order." ?—Yes.

Did Bridone engrave them ?—He got them engraved.

You had a thousand of these cheques ?—Yes.

Is Mr. Brydone a person who had done printing for you when you carried on a beating agency in Edinburgh in connexion with Murray, as "Philip Gardner and Co. ?"—Yes.

Did Mr. Brydone also print the headings of some letter forms ?—Yes.

Did your brother do the principal part of the business with Brydone ?—Yes.

He represented himself as Mr. Hawkins ?—Yes.

When you were Philip Gardner and Co. did you pass as Anderson ?—Yes.

Was 11, King-street, Piccadilly, to be "Montgomery's" place ?—Yes.

Was it arranged that your brother should represent Montgomery at that address ?—It was.

Can you remember the date when those lodgings were taken ?—No.

Nor the month ?—August.

Was 11, Duke-street, to be the address of a book-maker named "Thomas Ellerton ?—Yes.

Was Bale to represent that person ?—Yes.

Was 19, St. ——-place, the lodging of "Charles Jackson," another "bookmaker" ?—Yes

And at 2, Cleveland-row, were lodgings taken for "Jacob Francis," also a "bookmaker ?"—Yes.

Was your brother Frederick to represent that person ?—Yes.

Were lodgings taken at 110, Jermyn-street, in the name of Richard Gregory ?—Yes.

Was Bale to represent Gregory ?—Yes.

Some of those lodgings were taken in August and September ?—Yes.

Who was to represent Jackson—My brother.

When and where was this fraud first concocted ?—At 29, Marine-road.

At your house ?—Yes.

How soon before the *Sport* was ordered was Mr. Brydone employed ?—Three or four days.

Were there any persons connected with this fraud besides you yourself, your brother, Benson, and Bale ?—No.

I want to call your attention to the dinner at Mrs. Ethel's. You can't fix the date ?—It was the first Saturday in September.

What was the subject of conversation ?—I think it was principally about the stolen Gainsborough picture.

What was the subject of your conversation ?—I know of no other conversation except the Gainsborough picture.

Did you have any conversation at any time with Meiklejohn about this Montgomery fraud ?—Yes; on several occasions.

When first ?—Just before it started.

Where ?—At the Swan at Stockwell one night.

About what date ?—About the 1st or 2nd August, I should think.

Mr. Williams—Do not lead, please, Mr. Poland. I must remind Sir James Ingham that none of this evidence was opened by the prosecution. They are now seeking to prove Meiklejohn to have been an accessory before as well as after the fact.

Mr. Poland—Who was present at that conversation ?—Witness—Myself and two men named Jebb and Godwin.

What was the conversation ?—Meiklejohn told Jebb and Godwin that I was going to start a racing firm. He said that I could explain it better than he. I told them there would be a number of registered letters come, and asked if they would tell me when the letters were stopped.

And followed ?—They said they would tell me.

Anything further ?—There was another conversation, but I cannot remember what it was.

Did Meiklejohn tell you who these men were ?—Yes.

What did he say ?—That they were post-office officials. (Sensation.)

Belonging to what district ?—The South-Western.

Are the addresses King-street, Duke-street, Cleveland-row, Jermyn-street, and St. James's-place in the S.W. district ?—Yes.

When had you seen these men before ?—About a week before.

Was that the first time ?—Yes.

Where did you see them then ?—At the same place.

Were you present when ?—Meiklejohn and myself.

Did you and Meiklejohn go there together ?—I forget.

What passed at the interview ?—They told me that letters had been stopped.

How came you to know those persons first ?—Meiklejohn introduced them. He said I was going to advertise in the papers the opening of a firm in Paris, and that a number of letters would come. I asked whether they would let me know if there were any complaints, and they said they would.

But that did not relate to the Montgomery scheme ?—No; this was a previous scheme.

You misunderstood my question. When did you see Meiklejohn about the Montgomery scheme—the scheme by which Madame de Goncourt was defrauded ?—It was at the second interview that the Montgomery scheme was spoken of. The first interview was about the Paris loan.

What became of the Paris loan scheme ?—The French Government telegranhed to London and stopped the letters.

Where was the scheme planned ?—In Paris.

At the dinner which took place at Mrs. Ethels do you remember anything occurring ?—I remember that my groom—(a laugh)—brought me a telegram.

What was the name of the groom ?—I forget his name, but he was a witness against me at the last trial.

Was it Goldey ?—Yes; that was it.

At what time was the telegram brought ?—About seven in the evening. It was for me, but Benson opened it. I saw it.

Was Meiklejohn present ?—Yes.

Was it read aloud ?—Yes.

Was it shown to Meiklejohn ?—Yes.

Who was it from ?—Meiklejohn's wife. (A laugh.)

What was the substance of it ?—Simply asking me whether, if I knew where Meiklejohn was, I would send him home. (Laughter.)

Mr. Williams—I never knew anything so trivial.

Mr Poland—It is very important in my view. What did Meiklejohn say ?—Witness—He said "It must be some information about the Gainsborough picture." (A laugh.)

What did he do ?—He left.

Was any other topic than the Gainsborough picture discussed at the dinner ?—I know of no other topic.

What time did he leave ?—Upon eight.

Between the lending him the £60 and the date of the dinner had you seen Druscovich ?—Yes.

Where ?—At the Swan at Stockwell.

Was any one else present ?—No.

Did you meet him by accident or by arrangement ?—By arrangement.

How did you arrange ?—Through Meiklejohn.

What passed between you and Meiklejohn about it ?—I told him that I wanted to see Druscovich.

Did you say what for ?—Because I wanted to "square" him. (Sensation.)

What about ?—About opening the Montgomery firm.

What did Meiklejohn say ?—I cannot remember what he said, but he made an appointment with Druscovich.

When was this ?—Some time in August.

How soon after the conversation with Meiklejohn did you see Druscovich ?—I believe the next night.

What did Meiklejohn say about Druscovich ?—He told me Druscovich had had the case of the Paris loan, and had stopped the letters.

What more ?—I cannot remember any more. Meiklejohn, I think, told me to go to the Swan, and I should see Druscovich. He might have written that.

Did you drive with your gig to the Swan ?—Yes; I believe I generally drove there.

Up to the very door ?—Yes.

What passed between you and Druscovich ?—I told him I was going to open a firm in Paris, and believed that I was going to invite the French people to back those horses. I said I did not believe there would be any complaints, or that anybody would interfere with us, but that the Treasury might take some proceedings I added that if my mind their being me £100, but they might give me three months' imprisonment. He asked me if the affair was a legitimate affair, and I replied that it was, or Meiklejohn would not have let his hand to it. (Laughter.) He said he saw no harm in that, then. I asked him if he would let me know when any complaints came, and he stated that he would.

Just explain what you meant. You told Druscovich that it was a legitimate affair, and yet you thought you might get three months.—I meant that it was legitimate in the way, but that it was contrary to the Betting Act. (Laughter.)

You meant that it was not a fraud ?—Just so.

Mr. Woutner.—Did you say so ?

Witness.—I don't remember saying it, but that was what I meant.

Mr. Woutner.—What was said is one thing; what was meant may be quite another thing.

Mr. Poland.—But that is what you meant ?—Witness; Yes.

What further passed ?—He was to let me know if any complaints came, and I gave him £25.

In what money ?—In gold.

Was anything said about that sum ?—He refused it at first, but I offered it to him again, and he accepted it, and promised to let me know if anything turned up.

When you pressed it upon him, what did you say ?—I cannot remember. He had a pilot coat on, and I believe I put it into his pocket. When I pressed the money upon him he said, "I already owe you something."

Was the money wrapped in anything ?—It was in a small bag.

Did you give him bag and all ?—I did.

Where did you get the money from ?—I cannot remember.

Was anybody else present ?—No.

Where did all this occur ?—At the Angel.

In what part of the house ?—In the parlour.

Can you say about when ?—Was it before or after you had ordered *The Sport* to be printed ?—After.

Mr. St. John Woutner—When was *The Sport* printed ?

Mr. Poland—The date on the paper is Aug. 5. (To witness): Can you tell us anything to fix the precise date ?—I cannot say what the exact date was, but Druscovich had returned from Jersey a few days before.

How do you know that ?—Meiklejohn had previously informed me that he was going to Jersey, and Druscovich mentioned that he had just returned.

Can you say whether it was before or after the time when you received the printed cheque ?—I cannot say.

The Sport and the printed translation were sent abroad ?—Yes, a number of copies.

Did you work from a French Directory ?—Yes.

The answers came in the first instance to Montgomery, 11, King-street, Piccadilly ?—Yes.

Were those letters fetched by your brother ?—Or Bale.

Where were the letters first brought to ?—I believe Mrs. Ethel's.

Did your brother open the letters ?—They were always brought unopened.

Did you open any of them ?—I believe I opened them all.

Where was Benson ?—He was present.

What name did you go by at Mrs. Ethel's ?—I never had occasion to give any name. The servant was under the impression that my name was Giffard.

Were answers written ?—Yes: the letters came in French.

Do you know French ?—I do not.

Did Benson write the answers ?—Yes.

Could you read the letters ?—I could just about understand the pith of them, that was all—that is, the answers to the Montgomery letters only.

How long did the carrying on of this system at Mrs. Ethel's continue ?—I cannot say; a short time. It was carried on either there or at Mrs. Asey's.

Did you arrange to take an office in North humberland-street ?—Yes.

It being now a quarter-past four Mr. Beasley suggested that it might be a convenient hour to adjourn, considering that it was a Saturday afternoon.

Sir J. Ingham—Very well; but we must make this the exception, and not the rule.

The inquiry was then adjourned till next Thursday.

Mr. Froggatt was admitted to bail, and the three detectives were removed in custody.

APOLLINARIS
A NATURAL MINERAL
PURE, NATURAL, EFFERVESCING WATER
FROM THE APOLLINARIS BRUNNEN. WATER.

APOLLINARIS WATER—THE QUEEN OF TABLE WATERS.—" A great boon to all, but especially suited by its absolute purity and mild alkalinity to ward off the most fatal diseases of TROPICAL CLIMATES."—*British Medical Journal.*

"Possesses organic purity in the highest degree, wholly charged with its own Natural Gas. The production of the spring is equivalent to 40,000,000 of quart bottles per annum."—J. A. WANKLYN, V. Pres. of the Society of Public Analysts, &c., &c.

APOLLINARIS WATER.—" FAR SUPERIOR TO ORDINARY MANUFACTURED AERATED WATERS."—*Medical Times.*

APOLLINARIS WATER.—" The favoured drink of the favoured classes. The fashion in the Clubs, and universally recommended as a pure, refreshing drinking water by the Medical Profession. Especially suited moreover for Tropical Climates."—*London Medical Record.*

"APOLLINARIS WATER has rapidly attained a great and well-deserved popularity in England. Particularly valuable to Indians having or fearing a touch of liver or disordered digestion."—*Practitioner.*

APOLLINARIS WATER.—Inspector General Macpherson M.D., late H. M. Indian Army, author of "Baths and Wells," &c., writes: "The advantage of Apollinaris Water is the exemption of its nitrate. In India it is difficult even with every care to obtain water for the manufacture of Soda Water that is free from impurities. THE APOLLINARIS WATER OUGHT TO BE A GREAT BOON TO INDIA."

Professor Macnamara, late Prof. University of Calcutta, &c., writes: "Soda Water in India is frequently polluted with drainage and organic impurities, which are the direct cause of cholera, typhus and dysentery. Apollinaris is absolutely pure. I STRONGLY ADVISE INDIAN RESIDENTS TO DRINK IT. IT IS FAR MORE REFRESHING AND WHOLESOME THAN SODA WATER."

Consumers can now be supplied with Apollinaris Water in Soda Water Bottles which can readily be sold when empty. They are cautioned to see that Bottles have SMITH, BIRMINGHAM & Co.'s name on the Label, otherwise they may purchase water not properly bottled for export.

THE INDIAN PIANETTE,
WITH SOLID ENTIRE IRON FRAME.

SOUNDY & Co.'s many years' experience in India has given them exceptional opportunities of seeing Pianofortes from all parts of the country that will not withstand the effects of this trying climate. They have therefore devoted considerable time and expense to the matter of constructing a thoroughly good and inexpensive Pianoforte that will be really serviceable, and have happily succeeded, after much trouble, in attaining this.

It is difficult to convey in an advertisement even an approximate idea of the qualities of the "INDIAN PIANETTE." SOUNDY & Co. would, therefore, invite intending purchasers of a Piano to see and judge for themselves. The instrument is made of SOLID CANADIAN WALNUT with black mouldings in relief; it has an entire iron frame, which render the strings quite independent of any wood bracings, which are not used in this Piano. THE PIN PLANK is firmly encased in the iron frame and securely bolted, so that it cannot possibly be affected by extremes of climate. THE SOUNDING BOARD is made of the very best seasoned wood and the bars are screwed upon quite a new principle. THE ACTION is of the very best construction and is DOUBLE CHECK, which gives a most delicate touch with great precision. The instrument has a TRICHORD TREBLE, which gives VOLUME and BRILLIANCY equal to a grand Piano, and the tone throughout is of a beautiful singing quality which renders it peculiarly adapted for brilliant pieces as well as an accompaniment to the voice. It has a FULL GRAND COMPASS OF 7 OCTAVES, so that the most modern and difficult works can be performed on the instrument.

The variations of climate, causing equal contraction and expansion of iron frame and strings together, the INDIAN PIANETTE, from its peculiar construction, will stand longer in tune than Pianos made upon any other system.

The greatest care has been taken to secure the instrument against the effects of insects and vermin, and although the case is of solid wood and substantial make, it is an exceedingly handsome Piano, whilst the compactness of the instrument renders it peculiarly adapted for transport to the mofussil.

The Price Rs. 450, places the INDIAN PIANETTE within the reach of all.
